Why be limited  
to a single access?

**Compact and practical, the  
PCMCIA module opens up  
new horizons.**

You wish to add a conditional access,  
insert an Aston® PCMCIA module  
in the slot of you receiver,  
and you will access the programme  
of your choice.

**Technical specifications of the PCMCIA modules**

- Compatible with DVB common interface
- Compatible with DVB MPEG 2
- Satellite, terrestrial and cable pay television
- Plug and play
- Several conditional access supported
- Multilingual menus (French, German, English, Spanish, Italian, Dutch, Finnish, Swedish)
- Compatible with ISO 7816-3 smart card standard
- Upgrade by satellite (Astra or Hot Bird) without service interruption
